

Newcastle Great Park

Client:
Newcastle
Great Park

Engineers:
Bullen

Value:
£4.9m

Brief

To construct new spine roads with all associated infrastructure to allow access to site for future development.

Action

2 separate road construction projects were carried out.

One providing 600m of dual carriageway with a new roundabout under live traffic management conditions including tie in to A1 interchange.

Environmental works included badger crossings, new protection measures, water balancing ponds and landscaping works.

The second project comprised 550m of extended single carriageway to the new Sage UK Headquarters.

A new 450 space park and ride facility was also constructed with new traffic signal junctions and the first 'Pegasus Crossing' in the North of England.
