

Reclamation Works Riddochhill, West Lothian

Client:

Riddochhill
Development Co Ltd

Engineer:

Scott Wilson

Value:

£12.0m

Brief

To provide reclamation and infrastructure works to new business park development on site of former colliery

Works also included remediation to deal with a burning pit heap and the provision of environmental factors such as badger runs.

Action

Works undertaken consisted of major bulk earthworks of 2,000,000 cu. m. to create development areas for a new business park after the clearance of existing infrastructure.

The works also provide new access roads with drainage to service the new development.
